Between 1600 and 1874.

Between 1871-1874 worst things to happen behind a young child, Ancestor of mine, his/or her unknowledgeable understanding of what qualifies one as a ROYAL and Nothing explained of EQUALITY to Either.

- The Universal Postal Union is established. The Philadelphia Zoo opens, the first public zoo in the United States. The Sholes and Glidden typewriter, with cylindrical platen and QWERTY keyboard, is first marketed in the United States. The Bank of Spain emits the first peseta banknotes.
- The Panic of 1873 triggered the first 'Great Depression' in the United States and abroad. Lasting from September 1873 until 1878/9, the economic downturn then became known as the Long Depression after the stock market crash of 1929. Currency in the nineteenth century was based on specie.(specie- my own disjointed terminology because of the inaction of hatred-Spectale/Spectis/Spectation)
- 1872 United States presidential election: Ulysses S. Grant defeats Horace Greeley. Women's suffrage: In defiance of the law, American suffragist Susan B. Anthony votes for the first time (on November 18 she is served an arrest warrant, and in the subsequent trial is fined \$100, which she never pays).
- Grant signs the Ku Klux Klan Act. May 4 – The first supposedly Major League Baseball game is played. May 8 – The first Major League Baseball home run is hit by Ezra Sutton of the Cleveland Forest Citys. June 10 – Captain McLane Tilton leads 109 U.S. Marines in a naval attack on the Han River forts in Korea.
